All of the cited patents disclose cellular systems; however,
there is no disclosure of a cellular system in which call
management decisions are based on the location of a mobile unit
rather than signal strength as claimed by applicant. Not all of
the cited references are pertinent references due to their filing
and/or issue dates. However, in order to be sure the examiner has
all of the art that applicant is aware of, pertinent or not,
these references are cited herein. The citation of these
references is not intended to be an admission of their pertinence
however.

Respectfully submitted,
